Report No. SAT-01542

Friday April 9, 2021

Satellite Policy Branch Information Space Station Applications Accepted for Filing

The applications listed below have been found, upon initial review, to be acceptable for filing. The Commission reserves the right to return any of the applications if, upon further examination, it is determined that the application is not in conformance with the Commission's rules or its policies. Consideration of each satellite application in this Public Notice may depend on the Commission's action on another satellite application earlier in the queue. Petitions, oppositions, and other pleadings filed in response to this notice should conform to Section 25.154 of the Commission's rules, unless otherwise noted. 47 C.F.R. § 25.154.

SAT-MOD-20210319-00036 E S3014 Astro Digital US, Inc.
Date Filed: 03/19/2021 21:32:54:52000
Modification

Astro Digital US, Inc. seeks modification to its space station license, previously granted in part and deferred in part for five satellites. See IBFS File No. SAT-LOA-20170508-00071 (granted in part Aug. 1, 2018). Astro Digital has deployed and is operating three satellites under its license, and seeks to modify its license for two authorized but not yet deployed satellites, to provide for launch of the planned Demo8 and Demo9 satellites. As part of that request, Astro Digital requests authorization of the 2025-2110 MHz (Earth-to-space) frequency band for command uplinks for the Demo8 and Demo9 satellites; and extension of the date by which the Demo8 and Demo9 satellites using command uplinks must be deployed, currently specified as March 31, 2021, to December 31, 2021. Astro Digital incorporates by reference the relevant waiver requests specified in its initial application, IBFS File No. SAT-LOA-20170508-00071.

For more information concerning this Notice, contact the Satellite Division at 202-418-0719; TTY 1-888-835-5322.
